## OBJECTIVE

A motivated and detail-oriented Software Engineering graduate with a strong foundation in web development, seeking an opportunity to apply my skills in JavaScript, React.js, Node.js, and database management. Passionate about building scalable, responsive, and user-friendly applications, with experience in Git, Firebase, and RESTful APIs. Eager to contribute to a dynamic development team and enhance my expertise in full-stack web development.

## EXPERIENCE SOFTWARE ENGINEER

**Abdulah & Sons** . Rawalpindi | Jun 2024 – September 2024

- Implemented and customized Odoo ERP to streamline business processes.
- Developed and configured Odoo modules to optimize workflow efficiency.
- Automated various business functions, reducing manual workload.
- Improved system integration, ensuring seamless data flow across departments.
- Enhanced operational efficiency by minimizing repetitive tasks.

### Game Designer

**M-Labs** . Islamabad, Pakistan | June 2024 - Aug 2024

- Gained hands-on experience in game design principles and player-centric level development.
- Learned to structure game levels based on user needs and engagement strategies.
- Implemented interactive gameplay mechanics to improve user engagement.

### Final Year Project – Python-Based Web Application

**from Capital university of Science & Technology. Islamabad**

- Developed a Python-based web application to automate delivery between suppliers and retailers.
- Integrated order assignment, real-time tracking, and Google Maps navigation for efficient deliveries.
- Designed an **inventory management system** with **automatic reordering** based on stock levels.
