

ZOHAIB UR REHMAN

Islamabad, Pakistan | P: +92 3025422822 | zohaibrehman595@gmail.com | [GitHub](#)

Area of Expertise

MERN Stack Development, RESTful API Development, Authentication & Authorization, Responsive UI Design, Database Design (MongoDB), Performance Optimization, Debugging, Git & GitHub Collaboration, Third-Party API Integration

TECHNICAL SKILL

- **Languages:** JavaScript (ES6+), TypeScript, Python, C, C++, Java
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST API Development, Basic Flask/Django
- **Databases:** MongoDB, PostgreSQL, MySQL, Firebase
- **Tools:** Git, GitHub, Postman, VS Code
- **Concepts:** MVC Architecture, API Design, Authentication & Authorization, Performance Optimization, Clean Code Practices
- **Additional Exposure:** Docker (Basic), CI/CD (Basic), AI Tools (ChatGPT, Claude)

PROFESSIONAL EXPERIENCE

MERN Stack Developer – HEXOFARM Technologies

May 2025 – December 2025

- Developed and maintained full-stack web applications using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and implemented RESTful APIs for authentication, data management, and frontend-backend integration.
- Built responsive and dynamic UI components using React.js and Tailwind CSS.
- Optimized database queries and application performance for scalability and faster load times.
- Integrated third-party APIs to extend application functionality.
- Collaborated with designers and backend developers in an Agile environment using Git workflows.

SOFTWARE ENGINEERING INTERN, Softech

May 2024 – September 2024

- Developed and customized Odoo ERP modules using Python.
- Assisted in debugging, deployment, and version control processes.
- Worked with backend logic and database-driven systems to meet business requirements.

EDUCATION

BACHLOR OF SCIENCE IN SOFTWARE ENGINEERING, Capital University of Science and Technology, Islamabad

Cumulative GPA: 3.46/4.0

Graduated March 2025

Relevant Courses: Data Structures, OOP, Database Systems, Web Engineering, Software Engineering, Operating Systems, Artificial Intelligence

PROJECTS

SWEAT & GAIN – Fitness Tracking Web App - [Live](#)

- Built a full-stack MERN application with authentication and user tracking system.
- Implemented REST APIs for workout tracking, attendance, and progress management.
- Designed dashboard with responsive UI and performance analytics.

MOVIEMINDED - Full-Stack Movie Platform - [Github](#)

- Developed MERN-based web app for managing movies with admin and user roles.
- Built APIs for uploading, updating, and retrieving movie data.
- Enabled users to browse movies and submit ratings with real-time interaction.

GAMEXPRESS – Gaming Products Showcase - [Live](#)

- Developed a React.js-based static web application to showcase gaming CDs and accessories with updated pricing.
- Implemented a component-based architecture for scalable and maintainable frontend development.

ADDITIONAL POINTS

- Strong problem-solving and debugging skills
- Passion for clean, scalable, and maintainable code.
